

Trilogy Certified Organic Rosehip Oil Nothing to hide

Trilogy Certified Organic Rosehip Oil, hero product and core ingredient of the Trilogy range, is still winning fans and awards after more than a decade. No longer just the smart girl's secret, rosehip oil is one of the hottest trends in natural beauty, with celebrities and supermodels crediting it for their beautiful glowing skin.

While it's fast becoming one of the world's iconic beauty products, **Trilogy Certified Organic Rosehip** is also gaining a reputation as a skincare staple for every bathroom cupboard or shelf, thanks to its ability to care for the whole family, gently and effectively, top to toe.

A superfine, easily absorbed pure seed oil, **Trilogy Certified Organic Rosehip Oil** helps improve the appearance of scars, stretch marks and wrinkles. Its skin-loving natural actives are highly effective at treating dry and dehydrated skin, ageing skin and uneven skin tone. Men love it as much as women, it's the ideal choice for mums and mums-to-be for a growing tummy and it's perfect for baby's delicate skin too.

Essential fatty acids (omegas 6 and 9), fatty acid (omega 9) and vitamins moisturize, soften and smooth, helping repair and restore radiantly healthy skin. Independent clinical studies from a prominent Australian research laboratory show that even in severe cases, **Trilogy Certified Organic Rosehip Oil** helps reduce the visible characteristics and appearance of scars by 41%¹, stretch marks by 43%¹ and wrinkles by 23%².

It's a true multi-tasker, well-known for maintaining beautiful, healthy skin and improving scars and stretch marks, but it's also super handy for a bunch of other jobs too:

- Instant fix for dehydrated, rough skin
- Helps calm irritated skin
- Great for smoothing men's skin (a la David Gandy)
- Soothes nappy rash and cradle cap - happy baby!
- Makes a decadent occasional all-over body treat
- Great for maintaining a healthy scalp
- Can be used to remove eye make-up – great for those with very sensitive skin
- Mix with loose-powder mineral makeup for a custom liquid foundation with a dewy finish
- Softens and smoothes ragged cuticles and gives nails a slight shine

Trilogy Certified Organic Rosehip Oil (20ml) RRP \$24.00 (45ml) RRP \$44.00

Celebrity favourite

"Unlike Trinny, I don't have cupboards and shelves filled with beauty products. I just have a little place by my toothbrush for one, and it is Trilogy Certified Organic Rosehip Oil. I find it incredible. I used to have quite a few little red lines and a few scars...and it's got rid of them."

Susannah Constantine, *What Not To Wear*

"I was handed rosehip oil by a make-up artist on set once and I've been a massive fan ever since. I love the Trilogy serums, especially the Certified Organic Rosehip Oil. I even use it on the ends of my hair if it's dry and slather it on my face when I fly."

Anna Friel, actress and model

"I am loving Trilogy [Certified Organic] Rosehip Oil, it's fantastic for giving my client a mini facial to wake up the skin before applying make-up, which gives a beautiful luminosity to the skin. The fact that it's 100% natural makes me love it even more."

Charlotte Tilbury, celebrity makeup artist (UK)

"I love Trilogy's [Certified Organic] Rosehip Oil, it feels so luxurious."

Dita von Teese, actress and burlesque dancer
